

CULTURAL MAPPING (PART 4)

- In groups of 4, create your final cultural mapping system.
- Read all directions on the preceding page.

MAPPING SYSTEM REQUIREMENTS

REQUIREMENTS:

In your group, you will create your final mapping system. It can be as abstract as you want, or as concrete as a real-life-looking map of a place that you design.

1. Create a final mapping system that is in color, with detailed design, and on large graph paper.
2. Include at least 5 landmarks in each quadrant (20 minimum in total).
 - a. Label each landmark or feature with a coordinate at its center.
i.e.g., A (3,-2)
3. Label each quadrant in Roman numerals.
4. Include at least four landmarks that are reflections of each other:
 - a. 2 of them must be over the x-axis $(x,y) \leftrightarrow (x,-y)$
i.e.g., Original coordinate is **A (3,-2)**; the reflected coordinate would be **A' (3,2)**
 - b. 2 of them must be over the y-axis $(x,y) \leftrightarrow (-x,y)$
i.e.g., Original coordinate is **A (-5,-3)**; the reflected coordinate would be **A' (5,-3)**
